Experience

Freelance Full Stack Developer <i>Remote</i>	2025 - Present
<ul style="list-style-type: none">• Built production-ready booking and payment-based web applications for real clients.• Integrated Razorpay for secure payments, handling order creation, verification, and status updates.• Developed REST APIs and managed application data using Node.js, Express.js, MongoDB, and MySQL.• Created responsive frontend interfaces using React.js and Tailwind CSS.	

Projects

Vehicle Service Booking Platform

[GitHub](#) | [Live Demo](#)

- Built a web platform to simplify vehicle servicing appointments and eliminate manual tracking.
- Implemented frontend with React.js and backend APIs using Node.js, Express.js, and MongoDB, including secure JWT-based authentication.
- Developed responsive UI with real-time notifications, improving overall user experience and engagement.

Yammiverse

[GitHub](#) | [Live Demo](#)

- Developed a food recipes sharing platform enabling users to upload, search, and interact with recipes.
- Built with React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, and Multer; learned CRUD operations, authentication, and image handling.
- Ensured interactive UI, responsive design, and smooth user experience, making the platform engaging and user-friendly.
