TECHNICAL SKILLS

Programming: Java, JavaScript (ES6+)

Frontend: HTML, CSS, React.js, Redux Toolkit, Tailwind CSS, Responsive Design

Mobile: React Native, Expo, React Native CLI, Android, iOS, AsyncStorage

Backend: Node.js, Express.js, REST APIs, API Integration, JWT Authentication, MVC Architecture

Databases: MongoDB, MySQL

System Design: HLD, LLD, Scalability, Caching, Load Balancing, Rate Limiting, Health Checks

Tools & Technologies: Git, GitHub, Postman, Socket.IO, Razorpay API, MongoDB Atlas, Vercel, Render

CS Fundamentals: Data Structures and Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

Full Stack Developer Intern

June 2026 – August 2026

BinaryLogix Technologies LLP

Bhopal, Madhya Pradesh

- Developed backend APIs for the Saloonwala application using Node.js and Express.js based on application workflows and project requirements.
- Implemented mobile UI features for RiderHub and resolved a backend issue causing repeated API requests.
- Worked on frontend and backend development for Repairo, including a web dashboard, routes, client-requested changes, and application testing.

Software Development Intern

November 2025 – January 2026

Sky Info Group

Bhopal, Madhya Pradesh

- Developed backend functionality using Node.js and Express.js, fixed a payment-related backend bug, and worked on database operations.
- Implemented two new features for an e-commerce application and designed reusable UI components based on project requirements.
- Tested application workflows and APIs, fixed issues, and verified frontend-backend integration and data functionality.

PROJECTS

FoodMitra – Full-Stack Food Delivery Ecosystem

[Live Demo](#) | [GitHub](#)

- Built a complete food delivery ecosystem with **3 React Native applications** for Customers, Delivery Partners, and Tiffin Houses, along with a **React.js web admin panel** styled using Tailwind CSS and responsive design.
- Developed the complete backend using **Node.js, Express.js, and MongoDB**, implementing JWT authentication, vendor and food-item management, order processing, delivery workflows, role-based operations, and REST APIs.
- Integrated **Socket.IO** for real-time order and delivery updates, Firebase for notifications, Razorpay for payments, and Google Maps/location services for location-based delivery operations.

Vehicle Service Booking Platform

[Live Demo](#) | [GitHub](#)

- Built a full-stack vehicle service booking web application using **React.js and Tailwind CSS**, with responsive interfaces for service discovery, vehicle selection, booking management, appointment tracking, and customer workflows.
- Developed the backend using **Node.js, Express.js, and MongoDB**, implementing JWT authentication, REST APIs, service and booking management, database operations, role-based access, and admin dashboard workflows.
- Integrated **Razorpay** for online payments and connected frontend-backend workflows to manage service bookings, payment status, appointment updates, and administrative operations.

ACHIEVEMENTS

- **300+ DSA Problems Solved** across GeeksforGeeks and LeetCode
- **45-Day Coding Challenge Completed** – Coding Thinker

EDUCATION

IES Institute of Technology and Management

Bhopal, Madhya Pradesh

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

CERTIFICATIONS

- **Frontend Developer (React)** – HackerRank
- **Problem Solving (Intermediate)** – HackerRank
