SUMMARY

Full Stack Developer specializing in MERN Stack and React Native with hands-on experience building responsive web and mobile applications. Skilled in designing and developing RESTful APIs, implementing secure authentication systems, managing databases, and creating intuitive user experiences. Strong understanding of Data Structures, Algorithms, DBMS, Operating Systems, and OOP principles. Adept at solving complex problems and delivering high-quality software solutions that are scalable, maintainable, and performance-driven.

EDUCATION

IES Institute of Technology and Management

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Bhopal, Madhya Pradesh

2022 – 2026

Saraswati Higher Secondary School

Higher Secondary Education (PCM), MP Board

Nagod, Satna, Madhya Pradesh

2021 – 2022

TECHNICAL SKILLS

Programming: Java, JavaScript (ES6+), HTML, CSS

Frontend: React.js, Tailwind CSS, Responsive UI, Cross-Browser Design

Mobile: React Native (Expo, Cli), Cross-Platform App Development (Android, iOS)

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Integrations: Socket.io, Razorpay API, OTP Verification

Tools: Git, GitHub, Postman, MongoDB Atlas, Vercel, Render

CS Fundamentals: Data Structures And Algorithms, OOPs, DBMS

EXPERIENCE

Software Development Intern

Sky Info Group

May 2025

Bhopal, Madhya Pradesh

- Contributed to live production projects by developing and implementing new features, resolving bugs, and optimizing application performance according to client requirements.
- Implemented website updates and feature enhancements to improve functionality, usability, and overall user experience.
- Identified and fixed application issues, including payment status synchronization bugs and data inconsistencies.
- Collaborated with the development team on testing, debugging, database validation, and deployment of application updates.

PROJECTS

• ParkEasy – Smart Parking Booking Application

[GitHub](#) | [APK](#)

Developed a full-stack parking management mobile application that enables users to discover, book, and manage parking slots in real time. Built a comprehensive admin dashboard for managing users, monitoring bookings, updating parking slot availability, approving reservations, and controlling user account status (active/inactive). Implemented secure authentication, booking workflows, and real-time status updates to streamline parking operations.

Tech Stack: React Native, Node.js, Express.js, MongoDB, JWT

• Vehicle Service Booking Platform

[GitHub](#) | [Live Demo](#)

Built a full-stack vehicle service management platform that allows users to schedule service appointments, track service requests, and make secure online payments. Integrated Razorpay payment gateway, implemented role-based authentication, and developed RESTful APIs for efficient booking and service management. Designed an intuitive dashboard for managing appointments, customers, and service operations.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay, JWT
